Future Voter Registration 2022 for Highline Public Schools Student Directions

Voting is a critical function of our democracy, yet as of 2018, only 56% of 18- to-24 -year-olds were registered to vote in Washington. In 2018, the Washington State Legislature created the Future Voter program in an effort to increase access to voter registration and recognize the importance of lifelong civic participation. This program boostered participation to nearly 73% in the 2020 elections.
